

## < Senju area, Shinden area, Odai and Miyagi area > Please Cooperate with “Plastic Collection.”

Adachi City has been implementing separate plastic collection in the Senju area, Shinden Area, and Odai/Miyagi area since April 2024.

### Plastics to be collected

#### ■ plastic containers and packaging

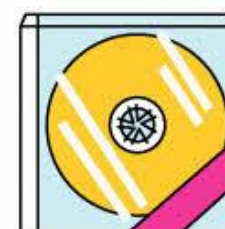

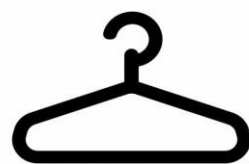

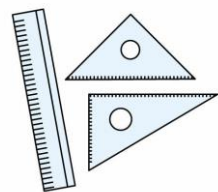

Containers and packaging such as cups, packs, trays, and bottles that display the mark. 

#### ■ Plastic Products

Products made entirely of plastic, such as stationery and hangers.

※ Products (calculators, razors, etc.) that contain anything other than plastic (e.g. metal) cannot be collected. As in the past, please put them out in combustible or non-combustible garbage.

### How to put out plastics

■ Rinse food containers and packaging with remaining water or wipe off dirt.

※ If the dirt cannot be removed, put them out as “combustible garbage” as in the past.
